DESIGN ENGINEERING 1988 EDITORIAL INDEX

ASSEMBLY

New alternatives in fasteners and adhesives — Apr p14
Putting the spring in design — Aug p20

AUTOMATION

PLCs key to automation at compressor plant — Apr p12
Programmable controllers report — Apr p13

CAD

1988 CAD/CAE/CAM capabilities guide — May p28
CAE helps build teamwork — May p45
Drawing conclusions: the plot quickens — Jan p14
New devices speed throughput — Jan p14
PCAD grows up — Nov p18
Streamlining telecommunications design — Feb p20
Taking the heat in metallugical design — Jun p18
The Mac attack: 68000-based PCs — Nov p20
Engineering computers blaze the way — Aug p12

CAREERS

Fielding tough interview questions — May p58
Hot job market means recruiters must hustle — Mar p138
Job discrimination is common — Jul p30
Managing risk when you change jobs — Sept p34
Predicting the 1988 job market — Jan p26
Steroids aren't for job hunters — Nov p34

ELECTRICAL AND ELECTRONIC

Designers guide to data collection — Apr p18
Dual motor configuration cuts startup power needs — Feb p13
Electronic solutions update — Jul p18
Micromachining makes uncommon sensors — Apr p16
Military, aerospace and health: hot markets for microelectronics — Dec p13
Motorola gets into RISCy business — Jun p14
Motors update — Feb p14
Neurocomputers: man-made 'brains' that think and learn — Oct p10
Sensors and switches roundup — Apr p17
Winning electronic designs — Jul p16

FLUID POWER

1988-1989 fluid power and controls buyers guide — Mar p23
A dynamic analysis of regenerative cylinders — Mar p16
Applying electrohydraulic control to proportional valves — Nov p10
Compression packings: carbon vs graphite — Jan p18
Cylinder capabilities pushed to the limit — Aug p15
Electrohyraulic controls boost pump versatility — Jun p38
Electronic controls squeeze compressor efficiencies — Jun p40
Hydraulic motor provides sweeping solution — Feb p12
Manifold design -- more than meets the eye — Nov p11
New pump profiles — Jun p42
Pressure standards: minimising uncertainty — Dec p18
Seals and packings newsfront — Jan p18

MATERIALS

Applications from wheelchairs to tanker trailers — Jan p10
Resin makers help designers in materials selection — Sept p14
Thermoplastic elastomers vs thermoset rubber — Sept p12

MECHANICAL POWER TRANSMISSION

1988-1989 mechanical power transmission buyers' guide — Oct p17
Bearings datafile — Jun p30
Bearings report: applications push technology to its limits — Jun p24
Brakes and clutches newsfront — Feb p16
Customers set the standard for geared drive makers — Nov p14
Over-running clutch answer to high power control — Feb p16
Synchronous drives finding new applications — Feb p22

NEWSMAKERS

British design awards: muck trucks to dryers — Jun p7
Innovative design automates wood lattice plant — Nov p13
Microwaves are key to plastic design problems — Jun p22
Personality of the year: the Hon. Monte Kwinter — Dec p11
Storage firm plays its cards right — Mar p21
The Japanese designer: design practices impress student tour group — Feb p18
Unprecedented precision in bob sled track design — Aug p37
